

## THE ELIMINATOR

**W**hat is the greatest BMW M-car ever made? Not the biggest, the most powerful or the best-selling – though our winner may also count one or more of these as an accolade – but the most engaging, inspiring and downright entertaining drivers' car to wear the M badge. There is certainly no shortage of contenders, with almost 30 years of M-cars to choose from, including four generations each of M3 and M5.

To have included every M-series car would have been spectacular but impractical and probably emotionally overwhelming, so

Our initial group of 12 M-cars will fight it out over two days to see which four go through to stage two to meet the new M3. And what better venue to make the decision than the quiet, challenging roads of South Wales (left)
